PROFILE

Electronic Engineering and Computer Science student at Aston University (Predicted First Class) with strong mathematical foundations and programming expertise in C++ and Python. Experience with high-performance computing, algorithm design and quantitative analysis. Seeking quantitative developer and trading internships.

EDUCATION

Aston University, Birmingham

Oct 2024 - Jul 2028

BEng (Hons), Electronic Engineering and Computer Science · **Predicted: First Class**

Top 40 Finalist - Black Heritage Undergraduate of the Year Award 2026

Relevant Modules: Internet Applications and Databases, Foundations of AI and Data Science, Introductory Programming for Digital Science (Python), Digital Circuit Design, Object-Oriented Programming (C++)

TECHNICAL SKILLS

Languages: C++, Python, Rust, CUDA

Math: Linear Algebra, Calculus, Probability, Statistics, Stochastic Calculus

Tools: NumPy, Pandas, QuantLib, Backtrader, Zipline

Performance: Low-latency optimisation, Memory management, Cache optimisation, SIMD

Finance: Derivatives pricing, Risk management, Algorithmic trading concepts

PROJECTS

Quantitative Trading Simulator

2025

Python, Pandas, NumPy, Backtrader, Yahoo Finance API

- Backtesting engine for momentum and mean-reversion strategies
- Implemented risk management with stop-losses and position sizing
- Portfolio analytics with Sharpe ratio, drawdown and volatility calculations

EXPERIENCE

TargetJobs / Sky

2026

Top 40 Finalist - Black Heritage Undergraduate of the Year

- Recognised among thousands of applicants for academic excellence and leadership potential
- Assessment centre experience including case studies and technical interviews

Cancer Research UK

2022-2024

Shop Volunteer

- Customer service and retail operations in charity shop environment
- Cash handling, stock management and visual merchandising
