Electronic Engineering & Computer Science student at Aston University (Predicted First Class). Partially sighted since age two following suspected retinoblastoma - I bring focus and determination to every challenge, from bare-metal firmware and PCB design to full-stack web and AI/ML. Seeking internships, placements or part-time roles in engineering and technology.

EDUCATION

Aston University, Birmingham, United Kingdom

Oct 2024 – Jul 2028

BEng (Hons), Electronic Engineering and Computer Science · **Predicted: First Class**

Top 40 Finalist – Black Heritage Undergraduate of the Year Award 2026 (TargetJobs & Sky)

Stanmore College, London, United Kingdom

Sep 2022 – Jul 2024

Pearson BTEC Level 3 National Extended Diploma in Engineering · **D*DD (Distinction*, Distinction, Distinction)**

Best and Most Hardworking Student Award

EXPERIENCE

Student Representative

Aston Students' Union, Birmingham, UK

Student advocacy, academic liaison

Oct 2024 – Present

- Represent student views to academic staff and university management, facilitating communication to **improve the course experience** for the department

Smart Mobility & Digital Tech (Virtual Work Experience)

Yunex Traffic via Springpod, Remote

Intelligent transport systems, sensor integration, data-driven urban mobility

Aug 2025

- Explored how **ITS and digital technology** improve air quality and urban efficiency through traffic lights design, sensor integration and data-driven transport management

Consular & Administrative Intern

Ghana High Commission, London, UK

Consular operations, document management, facilities coordination

Mar 2024 – Aug 2024

- Consular: supported **passport and visa processing**, document verification and public-facing client enquiries
- Administrative & Estates: managed **facilities operations**, document handling and administrative coordination

Junior Apprentice HVAC Technician

Massive Refrigeration Services, Accra, Ghana

Air conditioning systems, diagnostics, field installation

Jul 2019 – Jul 2021

- Serviced, installed and maintained **50+ air conditioning units** on-site using hand tools, drills and diagnostic meters

Student Judge – National Emerging Talent Awards 2026

targetjobs UK (Group GTI)

Volunteering · employer evaluation, qualitative assessment

Feb 2026

- Evaluated employer submissions for Best Placement or Internship Programme; **commended** for a thorough and high-quality approach

Fundraising Volunteer – 10 Days of 5K Challenge

Cancer Research UK

Volunteering · fundraising, personal challenge

Feb – Mar 2026

- Completed **10 x 5km runs (50km+)** contributing to a campaign that raised over **£797,000** for cancer research

PROJECTS

Two-Stage Audio Amplifier

2025

C, KiCad, Proteus, LTSpice, Oscilloscope

[Portfolio ↗](#)

- Designed and manufactured a **two-stage class A/B PCB from scratch**: schematic capture, layout, build and bench testing; measured **frequency response, voltage gain and clipping threshold** across both stages

4x4x4 NeoPixel LED Cube

2025

Arduino, C++, WS2812B, Electronics

[GitHub ↗](#) | [Portfolio ↗](#)

- Non-blocking **state machine architecture** using millis() with adaptive brightness, four animation modes, debounced inputs and buzzer feedback

AstonCV – Full-Stack CV Database

2026

PHP 8.2, MySQL, CSS, Apache, Cloudflare

[GitHub ↗](#) | [Portfolio ↗](#)

- Built from scratch with no frameworks: pure PHP 8.2, MySQL, CSS with **11 security measures** including bcrypt, CSRF, PDO and brute-force protection — deployed live at Aston University

git-unlocked – Open Source Git Course

2026

Git, GitHub, GitLab, Markdown, Open Source

[GitHub ↗](#) | [Portfolio ↗](#)

- 170+ structured topic files** spanning beginner to advanced, covering Git, GitHub, GitLab, Bitbucket, Azure DevOps, Gitea, Forgejo and Codeberg

TECHNICAL SKILLS

Languages: C, C++, Python, TypeScript, JavaScript, Java, PHP, SQL, MATLAB

Embedded: Arduino, STM32, ESP32, Raspberry Pi, AVR, KiCad, Proteus, FreeRTOS

Web: Next.js, React, Node.js, Tailwind CSS, PHP 8.2, MySQL, Apache

AI / ML: TensorFlow, PyTorch, NumPy, Pandas, Scikit-Learn, OpenCV

Cloud & DevOps: AWS, Azure, Docker, Vercel, Cloudflare, GitHub Actions

Hardware: PCB Layout, Circuit Design, Soldering, Oscilloscope, I2C / UART / SPI
